

Shipping Your Bridge by Courier or Common Carrier to UF

If you plan on shipping your steel bridge to the University of Florida before the competition, please ship it to the following address:

University of Florida
Dept. of Civil and Coastal Engineering
Attn: Steel Bridge Competition
365 Weil Hall
Gainesville, FL 32605
Phone: (352) 392-0959

As soon as you decide that you intend to ship your bridge, please email us (jfalls86@ufl.edu) so that we make plans for storage. Immediately prior to shipping, please email Jimmy Falls again at jfalls86@ufl.edu and indicate the expected arrival date, mode of shipping, and the number of boxes to be expected.

By shipping your property to the above address, you acknowledge that the University of Florida agree to receive and store the property from its date of arrival until Tuesday, 27 May 2008, and is not responsible for any damage to or loss of the property during the time of shipping or possession. The university will store the property in Weil Hall until a representative of your university signs it for.

All shipped bridges will be available for pickup starting at 8:00 AM on Friday, 23 May. Earlier access can be made available with prior notice. Once you sign for your bridge, it must remain in your possession until after the competition on Saturday, 24 May. You can return the bridge to our storage area immediately after the competition.

The storage area will be available for your access on Sunday, 25 May and Monday, 26 May from 9:00AM to 2:00 PM for final packing, if required.

The property must be prearranged to ship out from the campus of the University of Florida on Tuesday, 27 May 2008. It is your responsibility to arrange for pickup by your carrier. Any bridges not shipped out on 27 May will be recycled in an environmentally friendly manner.
